

FCC

The no call list need to be reinforce and made stronger. I pay for my phone and line service into my apartment so want give the right to telemarketer to call me at all hours. They should be paying me to use my line. Be fore the no call list started in Wisconsin I got three calls a night, seven days a week it got so bad I had to unplug my phone line from 6:00PM to 6:00 AM just to get any thing done including just eating.

So if you are going to pass a law make it like the wisconsin one that in now in effect.

Thank You
